

# 5D Global - Capabilities Statement

## Company Overview

**5D Global is a woman-owned, small business specializing in enterprise-grade software innovation and emerging technologies.** With a commitment to quality, innovation, and efficiency, we deliver exceptional solutions designed to meet the unique requirements of federal, state, and local government agencies, as well as the needs of prime contractors seeking reliable subcontracting and teaming partners.

Our expertise spans **Health IT, MedTech, FinTech, Banking, and Information Technology**, where we have delivered mission-critical solutions that improve efficiency, ensure compliance, and reduce costs. By combining deep technical expertise with a design-led, human-centered approach, 5D Global enables seamless project execution, risk reduction, and accelerated delivery for both public- and private-sector partners.

## Core Competencies

- **Emerging Technologies and Innovation**  
AI/ML applications, business process automation, custom software, APIs, and rapid prototyping with scalable production.
- **Healthcare IT and MedTech**  
FDA-compliant medical devices, advanced digital platforms, HFE/UX-validated systems, and 508/WCAG-compliant applications.
- **FinTech and Banking**  
Secure, scalable digital banking platforms, fraud detection systems, and accessible UX/UI for compliance-driven initiatives.
- **User Experience (UX) and Accessibility**  
Human-centered design, usability testing, 508/WCAG-compliant design systems, and modern UI/UX across platforms.
- **Creative Services**  
Proposal-ready graphic design and branded assets, RFP presentation design, infographics, and content bids support.
- **Project and Product Leadership**  
End-to-end product lifecycle management, agile program/project delivery, and domain expertise in regulated industries.

## Differentiators

- **Design-Led, Human-Centered Approach**  
Solutions grounded in Human-Centered Design (HCD) principles, aligned with federal standards.
- **Regulatory Compliance Expertise**  
Specialists in Section 508, WCAG, and regulatory requirements for digital accessibility and regulated industries.
- **Cross-Functional Team**  
UX designers, engineers, and researchers skilled in solving complex enterprise software and organizational challenges.
- **Flexible and Scalable Delivery**  
Specialized knowledge in Health IT, MedTech, FinTech, Banking, Education, and public service sectors.
- **Flexible Staffing Model**  
Onshore/offshore staffing model to meet agency and prime contracting needs.
- **Pending Certifications**  
Small Business, WSOB, EDWOSB, and 8(a) certifications pending.

## Past performance

- **Relevant industry experience**  
Successfully delivered solutions for healthcare, financial services, and technology sectors, aligning with government needs.
- **Private sector success**  
Provided software innovation, User-Centered Design, and UX/UI development to Fortune 500 companies and startups, demonstrating scalability and efficiency.
- **Strategic partnerships**  
Collaborated with industry leaders to develop secure, compliant, and innovative solutions applicable to government agencies.

## Company Data

- UEI Number: **QE15JBGCDKY1**
- CAGE Code: **0SQF9**
- Primary NAICS Codes:
  - **54151S - Information Technology Professional Services**
  - **541430 - Graphic Design Services**
  - **541511 - Custom Computer Programming Services**
  - *Additional codes available upon request*
- Contract vehicles: **GSA Schedule (pending)**
- Socioeconomic Status: **Small Business, WOSB (pending), EDWOSB, 8(a) (pending)**
- Certifications:
  - **State of California DGS Certified SB/MB ID: 2045335**
